

FAMINE AT KIMBERLEY

Inhabitants of the Besieged City Allowed 8 Ounces of Food Daily

SORTIES OF NO AVAIL

Great Loss of Life in Those Desperate Charges by the British

WATER SUPPLY OF THE CITY IS NOW ALSO CUT OFF.

British and Boer Skirmish on the Orange River—Ladysmith Invaded on All Sides and Boers Are in Position to Meet Any British Reinforcements Meant to Relieve Gen. White—Bombardment of the Town Continues—Stories of Red Cross Violations Circulated by Both Sides.

Pretoria, Nov. 11.—[Special Cablegram]—The Boer bombardment of Kimberley began this morning, and the city is being spelled from all quarters. No further particulars have reached us.

Cape Town, Nov. 11.—[Special Cablegram]—A Kimberley dispatch says that the town is threatened with a famine. The inhabitants are allowed but eight ounces of food apiece daily.

The investment of the city by the Boers is complete. Desperate sorties to break the besieging line have been unavailing and resulted in a large loss of life.

It is a matter of only a few days unless succor arrives, when the town must surrender.

Shut Off the Water Supply

London, Nov. 11.—[Special Cablegram]—An official Kimberley dispatch dated Nov. 6, says that two unarmored natives were shot by the Boers. The Alexanderfontein reservoir south of town was taken by the Boers. The wounded at Kimberley are doing well.

The taking of this reservoir means the shutting off of the pure water supply from the city.

Skirmish With the Boers.

London, Nov. 11.—[Special Cablegram]—An official Cape Town dispatch under date of Friday says that the British reconnoitering force from the Orange river had a skirmish with the Boers four miles from Belmont station. Lieutenant Colonel Falconer of the Northumberland Fusiliers was killed. Lieutenant Wood seriously wounded and two privates wounded.

Rumors Are Not Believed.

London, Nov. 11.—[Special Cablegram]—A Paris news agency reports that a British transport foundered last night off the Island of Ushanta, on the Breton coast. Similar rumors come from Brest. Neither is believed.

British Abandon Allval

Cape Town, Nov. 11.—[Special Cablegram]—The British have abandoned Allval, an important post on the northern cape colony frontier. The Boers have occupied the place. The Basutos have expressed sympathy for the British by quitting work on Boer farms. As a result the crops are rotting.

Offers England 1,000 Troops.

London, Nov. 11.—[Special Cablegram]—Sir Charles Vincent, commander of the Queen's Westminster volunteers, has offered to the Cape Colony the services of a thousand English volunteers. The Cape authorities have submitted the offer to Buller.

LADYSMITH IS IN DIRE PERIL

Boer Besiegers in Position to Meet British Reinforcements.

London, Nov. 11.—[Special Cablegram]—The news from Natal received in London yesterday though meagre all points to one conclusion. The Boers are endeavoring to surround Ladysmith in such a way as not only to completely invest the town and garrison, but also to be in a position to meet any British reinforcements that may be sent from Durban.

There are signs that the greater part of the Boer forces are concentrated between Ladysmith and Colenso. In this position Ladysmith is effectually cut off from all help, and, at the same time the enemy is well placed to meet any British force advancing from Estcourt.

The bombardment of Ladysmith continues. Probably the Boers by now have several hundred guns in place, so that the British garrison may have to endure severe trials. The Boer shells are said to be bursting better than hith-

erto and the fire of their big weapon is becoming more effective.

No news has been received from either Kimberley or Mafeking but a feeling of confidence prevails that the Boers have not made any impression on the defense of those two posts.

PLAY AT MILWAUKEE

Football Game Between Illinois and Wisconsin Teams—3,000 People Out to See It.

Milwaukee, Wis., Nov. 11, 2:30 p. m.—[Special Telegram]—This city is wild with football excitement. The weather is fine and at least 8,000 enthusiasts are crowded in the grand stand and bleachers of the Milwaukee baseball park waiting for the game to begin.

Scotfield and Adams Present

The Badger football team, composed of thirty-two players and the coaches, arrived this morning at 10:30 and stopped at the Plankinton House. In the Madison party were President Adams and Governor Scofield and party. Mayor Horen and about 500 cardinal rooters have reserved seats in the middle section of the stands. President Draper of the University of Illinois, occupies a box, and together with about 100 students and a number of alumni from Chicago, composed the Illinois contingent.

The contest began promptly at 2:30, with Heffelfinger and Everts Wrenn as officials.

The Illinois football team and a number of enthusiastic followers arrived in Milwaukee yesterday afternoon, and are quartered at the Republican Hotel. From all indications the game will be one of the closest and hardest fought contests ever witnessed in the city, both teams being on edge and anxious to win.

ROBERTS WILL RESIGN

Mormon Member From Utah Will Not Take His Seat in Congress.

Washington, Nov. 11.—Brigham H. Roberts of Utah, is not to sit as a member of the house of representatives in congress, and he is not to be seated because he is a polygamist. He is to resign after being sworn in, and the state of Utah will thus have a chance to elect a representative in congress who will not be unwelcome to his colleagues and useless to his constituents.

At least, it is now believed that an arrangement of this sort has been reached, or will soon be agreed to. Negotiations are in progress between certain republican leaders and Mr. Roberts and his Mormon friends, and the chances are that this will be the outcome of the celebrated case.

GRIGGS MAY TAKE HOBART'S PLACE

PRESIDENT WILL VISIT THE SICK VICE PRESIDENT.

Rumor That Attorney General May Be Selected As McKinley's Running Mate Next Year—Holland Submarine Boat a Success—A Dangerous Step.

Washington, Nov. 11.—President McKinley within a short time will visit Vice President Hobart. It was said today that, having been advised by his physicians that he had only a short time to live, Mr. Hobart had requested the president to come to Paterson.

In view of the retirement of Mr. Hobart from politics, even should he live until the next convention, there is an interesting bit of gossip today concerning his possible successor, in the person of Attorney General Griggs. Mr. Hobart was largely responsible for the selection of Mr. Griggs as attorney general. It is said that through his friends he has already impressed upon the president the desirability of having Mr. Griggs nominated for vice president.

The attorney general would prefer to go to the United States senate, but Gov. Voorhees also has senatorial ambitions and would advocate Mr. Griggs' nomination so that he might have a clear field in his effort to succeed Senator Sewell in 1901.

NAVY TO HAVE NEW FLEET.

Holland Submarine Boat Finds Favor with the Officials.

Washington, Nov. 11.—The success of the recent tests, with the Holland boat at Peconic bay, Long island, is considered by naval officials here as an assurance that the vessel will be purchased by the United States government. The tests were under the direction of officers of the navy and it is understood that the official report will favor the vessel. Navy officials, in fact, are claiming part of the credit for the success of the marine wonder, because the final test was held under conditions some of which were prescribed by the bureau of construction.

It is believed that Rear Admiral Hichborn will recommend to Secretary Long not only the purchase of the boat, but also the building of at least three like it next year. Secretary Long said a few days ago that he had intended to confine his recommendations to two or three armored cruisers and probably half a dozen smaller vessels. It is said now that he will make a supplemental recommendation for three or four of the Holland boats.

It is certain that the United States will not permit any other nation to obtain the control of this invention.

Loomis Makes a Mistake.

Washington, Nov. 11.—Minister Loomis has taken a dangerous, unauthorized and illegal step in inviting the warships of Great Britain, Germany and France to join with those of the United States to prevent the bombardment of Puerto Cabello, Venezuela, by the insurrectionists. He has been instructed to withdraw the invitation and to adhere to the practices usually followed and which are laid down in international law.

VAN HORN IS WITH US

Famous Canadian Endorses the McKinley Policy in the Philippine Islands.

Chicago, Nov. 11.—Canadians believe almost universally that the United States took the only course possible to it when it assumed the unfortunate duty of controlling the Philippines. They believe that the Filipinos will be in high degree beneficiaries of this policy of the United States, and that the possessions which the United States will gain in the Pacific will be of the greatest value to it.

This is the statement made by Sir William C. Van Horn, former president and now chairman of the board of directors of the Canadian Pacific railway, who is spending a day or two in the city looking after his personal property interests here. He is himself in full sympathy with the American policy of expansion, and his expression as representing merely himself has much interest for the well known breadth of his views and keenness of his perceptions and for the impartial position which he occupies.

ON THE LOOKOUT FOR LEONIDS METEORS

ASTRONOMERS AT LAKE GENOVA OBSERVATORY BUSY.

New 24 Inch Reflecting Telescope Being Prepared For the Event—Madison Coeds Stay Away From Ball—Emerson Day at Beloit—State News.

Williams Bay, Wis., Nov. 11.—The astronomers of the Yerkes observatory are already on the lookout for meteors, although none of the Leonids is expected before Sunday morning. The 24-inch reflecting telescope which has just been completed in the instrument shop of the observatory, has been set up temporarily on the roof of the building. It is supplied with a temporary equatorial mounting, which has been tested and found to work satisfactorily.

Sixteen or eighteen photographic cameras are being prepared with apertures varying in size from two to six inches. They are to be attached to the mountings of the telescope in such a way as to cover as much as possible of the sky where the meteors are expected to appear. It is hoped that a large number of meteor photographs will be secured and the position of the radiant determined with greater accuracy than ever before.

Prof. Barnard considers from 2 to 5 o'clock in the morning of November 15 the most favorable time for making observations of the meteors.

CO-EDS STAY AWAY FROM BALL

Young Women Students at Madison Refuse to Raise the Ban.

Madison, Wis., Nov. 11.—The failure of some of the women students of the university to raise the social embargo against the young men of the institution yesterday had the effect of keeping most of the co-eds from the big charity ball in the gymnasium last night and the proportion of the male students was also very small. The girls of the ball stood by the resolution almost to a body. A number of women students who attended expressed strong disapproval over extending the ban and considerable feeling is aroused, not only between the sexes but among the young women. Several hundred people attended the ball, which was the leading event of the year and attended by all the wealth and fashion of Madison.

It is reported that twenty students have been summoned to appear before the faculty for expulsion today and that a number of high school boys have also been found guilty of implication in the affair and will be disciplined.

Their sudden departure saves the city the expense of caring for the family during their stay in the Bower city.

Hammond, the divorced wife of the defendant. The defense was based upon a plea of temporary insanity induced by Hammond's alleged belief that Shayne destroyed his home.

This was one of the happiest and handsomest of home weddings. The house was beautifully decorated with flowers, and at the appointed time, to the strains of a wedding march played by Miss Mary Harper, the contracting parties took their places in front of a bank of blossoms in the parlor, and the solemn words were spoken which made the twain one for life.

SOME SOCIAL EVENTS OF LAST EVENING

CURRENT HISTORY CLUB'S LARGE ATTENDANCE.

Ex-Alderman Burnham Talked on the Political Outlook as the Result of the Recent Election—Dr. E. E. Loomis Took Part—Socials at All Souls and Presbyterian Churches.

A rain disaster did not prevent the ardor of the Current History club. Two rooms were well filled at the South Third street home of Mrs. J. L. Hay last evening. Those present were very much interested and went home feeling that the evening had been one of large profit. Mrs. Hay was the leader of the evening.

The program opened with a solo, "Thine Eyes So Blue," by Miss Maud Young. Being encored she sang "Morning in May" by Vetterbee. Her singing pleased the gathering very much. Percy Munger gave an able epitome of the week of war in South Africa. Miss Myrtle Dewey read a highly interesting paper on "The Alaskan Boundary Dispute," illustrating the same by a map. S. C. Burnham spoke on "Last Tuesday's Elections and Their Possible Future Meaning." This last showed a splendid mental grasp of the situation. G. H. Robinson sang "Dream" by Bartell. Responding to an encore he sang, "Out on the Deep."

Jabez Isaac read a paper on "The Location and Early History of the Philippine Islands." This was illustrated by an enlarged map of the early portion of the Philippines. This paper was full of useful information. Dr. E. E. Loomis finished with a very thoughtful and suggestive paper on the struggle of the United States in the Philippines.

Strips of paper were then passed on which questions on any of these questions were asked. This question box provoked considerable discussion. New names were taken. Then followed ten minutes of sociability. Percy Munger is the next leader.

All Souls Social.

At All Souls church parlors last evening a delightful social took place under the direction of Rev. A. G. Wilson, the pastor. The program was a literary one. CELEBRATED THEIR

GOLDEN WEDDING

TOWN OF ROCK ARE THE HAPPY PAIR.

Mr. and Mrs. S. E. Otis Were Wedded Fifty Years Ago Today—Have Resided on a Farm Near Janesville For Many Years—Held Reception at Their Suburban Home.

Fifty years ago today Mr. and Mrs. S. E. Otis of the town of Rock, were joined in the holy bonds of matrimony. Surrounded by numerous relatives and friends they celebrated today their golden wedding anniversary with the holding of a reception at their suburban home.

The happy couple were the recipients of many handsome gifts, and were showered with hearty congratulations. Several from this city were among the guests.

On November 11, 1849, Selden E. Otis and Miss Mary Cargill were joined in marriage. Mr. Otis was born at Saybrook, Conn., in 1827. Miss Cargill was a native of Long Island, her father, John Cargill, being a Scotchman.

In 1855 Mr. and Mrs. Otis came west to make their fortune, locating in the town of Harmony, where for many years they carried on farming. Before coming west Mr. Otis for three years was agent for the Pennsylvania Coal company, with headquarters in New York city.

Mr. Otis has held several public offices of trust, having been a member of the board of supervisors and clerk of the school district for many years. A host of friends will wish them years of continued happiness.

POOR ATTENDANCE FROM HERE

Janesville Was Not Well Represented at the Foot Ball Game.

In spite of a cheap rate of fare into Milwaukee today from this city on both railroads, there were but few from Janesville who made the trip to see the Illinois and Wisconsin football team clash. But few here seemed to get interested in the event. The coming Minnesota-Wisconsin game will be played in Minneapolis will attract many provided a cheap railroad fare is granted.

CURFEW LAW IN JANESVILLE.

Mayor Richardson Does Not See Where It Would Benefit the City.

Mayor V. P. Richardson is not in favor of a curfew law in Janesville. He says he does not see where it would be a benefit to the city. At Fond du Lac the common council has passed a curfew ordinance, making it an offense for any child under the age of 15 years to be on the streets after 9 o'clock between March 1 and September 30, and after 8 o'clock between Oct. 1 and the last of February, unless accompanied by parent or guardian. A fine of not more than \$25 or more than 30 days in jail is attached for any parent or guardian who allows children under 15 to go on the streets alone after the hour fixed, unless sent out on some mission which was an absolute necessity.

The chief fire marshal is to ring the curfew bell, eight slow taps, at 8 o'clock during the months when that is the hour, and nine slow taps during the fall and winter months.

BIG COAL STRIKE PROBABLE.

Mine Workers' President Summoned to a Conference in Illinois.

Springfield, Ill., Nov. 11.—Owing to the mining situation in the Belleville district having grown so serious in consequence of the shipment of coal from mines in the district to the strike districts in the southwest district President Hefti Friday telegraphed John Mitchell, the national president of the United Mine Workers of America, to come at once to Belleville or East St. Louis for a conference. President Mitchell telegraphed in reply that he would meet President Hefti in East St. Louis today.

The indicated yield per acre in the principal corn states is as follows: Pennsylvania, 31; Ohio, 34; Indiana, 37; Illinois, 35; Iowa, 31; Missouri, 25; Kansas, 29, and Nebraska, 27 bushels.

Of course, there will be majority and minority reports. Senator Spooner, who was in this city for a short time, said he would vote in favor of seating Mr. Quay.

Little Change Yet in Kentucky.

Louisville, Ky., Nov. 11.—The official count of the ballots cast Tuesday was begun Friday throughout the state. In this city representatives of all parties were admitted to watch the count by the commissioners, and the examination of the ballots proceeded in an orderly manner. Found Tobin's Skeleton.

Mount City, Ill., Nov. 11.—What is supposed to be the skeleton of Michael Tobin, murderer of Major Thomas A. Fitzpatrick, superintendent of the National cemetery in this city last June, was found Friday in the woods two miles from this city. Since the day of the murder all trace of Tobin has been lost. It is thought he ran, until exhausted, and realizing the enormity of his crime and his slim chance for escape, preferred to kill himself rather than die on the scaffold.

WEEKLY REVIEW OF TRADE.

Chief Feature of the Time is the Rise in Prices.

DISCREPANCY IS NOTICED.

Products Have Not Advanced in Uniformity with Other Branches of Commerce—Prices of Cereals Show Little or No Change—The Fallures.

New York, Nov. 11.—R. G. Dun & Co.'s weekly review of trade says:

"The most noteworthy feature of the time is the rise in prices. Cotton rose on Wednesday to 7.81 cents, with much excitement, putting the price 2 1/2 cents higher than it was a year ago, and yet it was still higher in September, 1897. Wood has risen relatively more, about 10 per cent in two weeks, and the average of 100 quotations by Coates Bros. is higher than it has been at any other time since May, 1893. Pig iron has risen further; \$25 being quoted for anthracite No. 1, the highest price since January, 1883. But hides are at the highest point since January, 1873. Prices of products have not correspondingly advanced. This discrepancy causes embarrassment, but is the natural characteristic of a rise which is mainly due not to concerted action in any trade, but to the pressure of a consuming demand the greatest ever known, which for the time exceeds supplies, though very unequally.

"Failures for the week have been 157 in the United States, against 211 last year, and 23 in Canada, against 26 last year."

Bradstreet's says:

"Cereals appear to have reached a dead level, with prices showing little or no change. The dullness of wheat at domestic markets finds explanation in Bradstreet's statistics of world's stocks, which indicate a gain for the month of over 17,000,000 bushels, contributed entirely from American sources, however, as foreign supplies showed a slight shrinkage."

THE OFFICIAL VOTE IN OHIO.

Lieutenant-Governor Ran Far Behind the Head of the Ticket.

Columbus, Ohio, Nov. 11.—The official vote has been received from eighty-two out of the eighty-eight counties. Gov.-Elect Nash's plurality in round numbers will be 50,000. Judge Caldwell, the republican candidate for lieutenant-governor, is elected by 12,000. The returns show that he received 37,000 less votes than the head of the ticket.

Samuel M. Jones, the independent candidate for governor, received about 103,000 votes in the state. Eighty counties give him a vote of 99,312, and in the other eight counties his vote is estimated at 3,600.

It is estimated that the total vote of the state was about 925,000, divided as follows: Nash, 435,500; McLean, 380,500; Jones, 103,000.

Looking for Able Men.

Washington, Nov. 11.—"President McKinley will appoint civil governors for Cuba and Porto Rico, whose authority will be supreme," said an official yesterday who undoubtedly has the confidence of Major McKinley.

"The president has this authority as commander-in-chief of the army, and, in fact, can do anything he pleases in this capacity. Legally he is practically a military despot. He is now looking around for men of high standing who have served as executives of states and who understand the needs of the people. Men of this character are better qualified to fill positions of this kind and understand the needs of the people much better than a military man, whose training has been to kill."

No Aid from the Treasury.

Examine the new oil cloth on the kitchen floor; its color and gloss are being destroyed and you may see where a cake of common soap fresh from the hot water in the scrubbing bucket has been laid on it for a moment, the free alkali having eaten an impression of the cake into the bright colors.

A more careful examination will show small "pin holes" here and there where the alkali has cut through the surface to soak into and gradually weaken the whole floor covering.

This is what cheap soaps do. Use Ivory Soap, it will not injure.

REASONABLE ARGUMENTS COUNT

In discussing the differences between the street railway company and the city, The Milwaukee Sentinel says:

"In Toronto school children now ride to school in the street cars by paying a 3-cent fare, which has been in force since 1890.

"In Milwaukee Mayor Rose and members of the common council propose to make a contract with the street car company which will make a 3-cent fare for school children impossible for thirty-five years.

"Is Milwaukee to be forty-five years behind the Canadian city? What do the people of Milwaukee say?"

People who do not live in Milwaukee are not, perhaps, competent to pass upon Milwaukee's local questions, but it would appear to the person who visited Milwaukee occasionally that Milwaukee was in no way behind the times in the matter of street railway facilities. It is generally believed, among Wisconsin people, that Milwaukee's rapid transit system could not be improved upon to any material extent.

The question of how much fare should be charged is, of course, debatable and always will be. But the fairness of comparing Milwaukee with Toronto in this respect is also open to discussion. If school children are carried for three cents in Toronto, it does not necessarily follow that the same arrangement would be fair in Milwaukee. The Toronto company's liberality in the matter of transporting the school children may be offset by the lack of liberality in some other direction.

The people should be given the lowest fare possible, and the company should give the best possible service. Neither the people nor the company can be expected to make all of the concessions. A reasonable agreement can only be reached through the reasonable discussion of the facts in the case.

The mayor and the common council—with the exception of four aldermen—are in favor of adopting the agreement now under consideration. The fact that the people of the city are in favor of treating the street railway company fairly has been clearly shown by the hundreds of interviews published by The Evening Wisconsin. The fact that the present proposition is thus endorsed, by the city officials, by a majority of the people and by nearly all the newspapers published in the Cream City would appear to indicate that public sentiment was pretty well crystallized.

The Sentinel may not take this view of the case, and has a right to its opinion, but the disinterested reader can hardly consider the Sentinel's argument reasonable, however, for the extract above quoted might justify the conclusion that the Sentinel is more anxious to "poke up" the street railway company than it is to serve the people.

THINK BELOIT ERRS.

The belief is quite general in this vicinity that the people of Beloit made a mistake in opposing the construction of the proposed electric railway from Rockford to Madison via Beloit and Janesville.

The fact that no city can have too many railways is pretty well established and the fact that an electric railway is next to a steam railway is equally apparent. Therefore electric railways are to be sought for instead of opposed.

The principle objection raised by Beloit people, as it is generally understood, was that local trade would be taken to Janesville and Rockford. We fail to see how this would become the case, however. Beloit merchants should certainly be able to hold their own against any outside competition, and we believe that they would.

When the Harvard-Lake Geneva electric line was built it met with strong opposition, but time has showed its value, and now the people living on the line would scarcely know how to go along without it.

The Beloit people who wish to buy their goods away from home can do so anyway. The big "mail order houses" of the cities have given them all the facilities desired. Hence, we cannot agree

with the Line City that the building of the new line would materially lessen the business done by Beloit merchants. Any small loss that might result from the building of either steam or electric line would certainly be more than counterbalanced by the increased trade resulting from the additional facilities given the farmer who desired to visit Beloit. The farmer, or his wife, would "go to town" much oftener if an electric car could be used instead of horse and buggy.

Janesville people are strongly in favor of the building of the line, and the opinion is quite general here that a city stands in its own light when it opposes enterprises of this character.

Milwaukee Evening Wisconsin: Calm contemplation of the new, style "box coat" that has made its appearance among the fashionable vagaries of the adorable sex warrants the statement that the coat had better be put into a box and kept there. If lovely woman wants to look like a meal bag, she has a perfect right to do so. At the same time beauty-loving and symmetry-admiring mankind has a right to have fastes of his own.

The Chicago, Milwaukee & St. Paul Railway company's new passenger depot at Beloit has been opened to the public. It is a handsome and substantial structure, altogether in keeping with the character of our enterprising sister on the State Line.

The Milwaukee Journal did not reproduce W. J. Bryan's telegram to that paper in facsimile because, undoubtedly, it was sent "dead head." The people of Wisconsin do not take kindly to the use of a free pass these days.

Novel Roof Gardens.

On any hot summer night in New York city a population of several hundred thousand men, women and children are to be found, with considerable part of their household belongings, crowded together on the roofs of their tenement houses. The tenement roof garden, as it has been called, offers for most of these people their only chance of relief from the dark, overheated rooms below. Looking down upon these roofs from some skyscraper or other high altitude the lighted town suggests a city of the far east. Even cook stoves and tables are brought up from below, and scanty dinners are prepared under the broad sky.

Reductions in John Bull's Postal Rates.

Among the reductions in rates in the British postal service proposed by Henniker Heaton, M. P., is one providing for the sale of postal cards at their face, or stamp, value, the cards to be increased in size to the standard of the postal union. Another calls for the reduction of the registration fee to one penny (two cents), and still another refers to the telegraph rates, the telegraph being under the control of the postoffice in England. It provides that the name and address of the sender of a message shall be free, or a charge made of twelve cents for twenty words.

Tobacco Is Sensitive.

Tobacco is the most sensitive thing in the world. You can spoil the best cigar, pipe or cigarette that ever was made by lighting it over a smoky lamp or gas jet. The finest tobacco that ever grew doesn't taste good after you have been eating onions. Again, you should rinse your mouth out after a cigar, pipe or cigarette before lighting another. If you do you will find that every smoke has the soft fragrance of the early morning cigarette, instead of the hot stinkiness of the last pipe.

Wettest Place on Earth.

Cherrapunji, in Assam, northeast of Calcutta, has the reputation of being the wettest place on the earth, the average rainfall being 493.15 inches, while it has the record of one month in which 147.17 inches fell. This year it seems bound to beat all previous records, 267.84 inches of rain having fallen between Jan. 1 and the middle of June, five and one-half months, while 73.79 inches, over six feet of water, fell in a single week.

Don't Sleep Facing the Light.

It is very important that the eyes should really rest during the hours of sleep, and this they cannot do if they are not properly shaded. If possible, the bed should be placed where the light from the window does not fall on the face of the sleeper, but in a small room it is inconvenient sometimes to arrange this, and therefore the window should be provided with a dark green blind or covered with curtains. If you are inclined to think that as long as the eyes are closed they are sufficiently shaded you can easily test the matter. Shut your eyes while facing the light and then shade them with your hand. The relief of the interposed shade you will find to be almost as great to the shut eyes as it is when they are open, for the eyelids only lessen the strain on the eyes and do not remove it.

Dogs Are Property.

Judge Lumpkin, in Atlanta, delivered a decision on dogs in Atlanta, in which he held that a dog could be made on a dog as property of value. This is the first decision of the kind that has been made in this state. As Judge Lumpkin said, the dog question has been in the courts many times, but it has usually been considered in cases of theft for which a punishment is being sought, but has never been considered in the light of a levy before. Judge Lumpkin's decision was one highly interesting, and we went into the history of the dog from the early times. He wrote a learned and interesting paper on the wild animals, and to what extent the ancient people had held the dogs as property.—Savannah News.

PETRA JOHNSON SUES DR. DUDLEY

ASKS FOR FIVE THOUSAND
DOLLARS DAMAGES.

Plaintiff is a Hard Working Norwegian Girl Residing Near Edgerton—Alleges Assault and Battery—Defendant Denies the Charge—Case on November Calendar.

Dr. E. H. Dudley of this city is the defendant in a lawsuit brought by Miss Petra Johnson. The plaintiff sues for \$5,000 damages for alleged assault and battery.

Miss Johnson resides on a farm with her parents near Edgerton and is a highly respected and hard working Norwegian girl.

According to her evidence she alleges that last April she was taken ill and her case instead of getting better gradually grew serious and soon developed into lung trouble. On April 15 her condition took a sudden turn for the worse and then it was decided best that she come to Janesville and consult a physician.

Accordingly Miss Johnson drove to the Bower City accompanied by a lady friend. On their arrival here they made their way to the office of Dr. Dudley where Miss Johnson stated her case. An examination followed and it was during the examination that Miss Johnson alleges that Dr. Dudley used indecent and abusive language. On her arrival home the girl related her story to her parents and they lost no time in driving to Janesville where they consulted attorneys. It was then that Miss Johnson decided to commence an action for damages.

Dr. Dudley denies the charge and says that the whole affair has been much overdrawn.

The case is scheduled on the November calendar and will in all probability be heard by Judge Dunwiddie unless a change of venue is taken or a settlement made. Mahoney & Ryan have been engaged to represent the plaintiffs, interests and Fethers, Jeffris & Mount will defend Dr. Dudley.

The Presbyterian ladies will hold their annual sale of Christmas articles Wednesday, November 22. Also noon lunch and chicken pie supper will be served.

MAY RUN VESTIBULE THROUGH LINE CITY

LOCAL RAILROAD MEN SAY
THAT'S THE INTENTION.

Tracks Between Janesville and Beloit Have Been Put in Excellent Shape—Would Branch Off at Harvard—Beloit Better Town Than Both Sharon and Clinton.

Present indications are that the Chicago-Janesville vestibule trains, on the Chicago & Northwestern railroad, are to arrive in the Bower City via Beloit. This would mean that the cities of Sharon and Clinton are to be neglected as the trains would branch off at Harvard.

No time would be lost as it is claimed that these trains can make just as quick time via Harvard, Caledonia Junction, Beloit and Atton. Prominent local officials of the road say that they know nothing of such intention on the part of the company.

A local conductor says that the Northwestern road have had this movement under consideration for some time and that present indications point stronger than ever toward such a change. South bound trains would probably not be effected but would go via Shopiere, Clinton and Harvard. Three "boarding cars" are now sidetracked at Atton to accommodate a gang of twenty five men who are laying new steel on the C. & N. W. railway between Atton and Beloit. The recent work on the line between Atton and Janesville, coupled with this latter improvement now under way, would indicate such a change.

Peck's Sun Objects

A Janesville preacher is making a crusade against the immorality of Janesville and Milwaukee. He likens the two cities to Sodom and Gomorrah. The reverend gentleman does not state which of these peaceful cities is Sodom, and which is "tother, but Milwaukee is prepared to prove an alibi, all right, and Janesville is able to look out for herself. The preacher is pained at the great brewing industry of Milwaukee, and seems to regard the brewing of beer as a sin, and the consumers of it as sinners. It all depends upon the point of view. Of course, the brewing of bad beer might be a sin, but the brewing of Milwaukee beer is an inspiration. If that minister should drink a quart bottle once in a while he would not feel so much like grumbling at the way the world is run.—Peck's Sun.

When this is placed on the feet, some sealions of truffes must be interwoven with it. The feet must be wrapped up in appropriate sized pieces of pigs' feet and then brand crumbed over this. When about to send to table, broil the feet upon oiled paper placed upon the gridiron to prevent their burning or falling to pieces, which, from the delicacy of the forcement (if properly prepared), they are liable to do. When nicely broiled on both sides, place and dish them up and serve with cullis sauce.

MARCIA JACKMAN ACTED AS CHAIRMAN

JANESVILLE GIRL PRESIDED
OVER THE MEETING.

University Girls Held Indignation Meeting and Elected the Bower City Young Lady as Their Chairman—Girls Stand Firm and Refuse to Forgive the University Young Men.

Miss Marcia Jackman of this city, daughter of Mrs. Mary Jackman, 58 St. Lawrence Place, was unanimously elected as chairman at an indignation meeting held in Madison on Thursday to protest against forgiving any of the young men who raised such havoc on Halloween night by breaking into the ladies' dormitory at the university.

At this meeting the young women of the university voted down an attempt upon the part of the sympathetic number of them to abrogate the resolution of last week by which it was agreed that they would boycott socially the young men of the school for the work of Halloween's eve until just punishment was meted out to the guilty and the losses to the women of ladies hall were made good in a substantial manner. The meeting was held in the senior lecture room in the law building at 4 o'clock in the afternoon and was attended by substantially all of the co eds. Miss Jackman, president of the Self Government association, being in the chair.

The question of abrogating the boycott came up in a resolution and was quite warmly debated, the young women who were anxious to accept invitations to the Attic Angels' charity ball being in favor of raising the embargo but the young women of the hall warmly seconded by Miss Jackman and Miss Emory and mentally suffering from the slights placed upon them by the young men, refused to listen to any concessions until the faculty had taken action. It was pointed out to the sympathetic ones, that the young men far from showing the proper spirit of regret, still retain three-fourths of the garments taken from the hall, but one fourth, including linen, greatly damaged, having been returned. These facts and arguments prevailed over sympathy and grand ball ambitions and the resolution was sustained.

CATHOLIC WOMAN ON TEMPERANCE

WILL LECTURE IN JANESVILLE
THIS MONTH

Mrs. Lenora M. Lake Comes Under the Auspices of the Rock County W. C. T. U.—Local Catholic Congregation Will Attend—Is Noted Advocate.

Mrs. Lenora M. Lake, third vice-president of the Catholic Total Abstinence Union of America, will deliver a temperance lecture in Janesville on the evening of Monday, November 20. At a meeting to be held next Thursday, the place of holding the lecture will then be decided on.

Mrs. Lake comes to Janesville under the auspices of the Rock County W. C. T. U. and while here will be their guest. She is a noted speaker and in all parts of the country has held rousing meetings that have accomplished much good.

Members of the W. C. T. U. have been assured of the united support of St. Patrick's and St. Mary's churches in their effort to make the coming lecture a success. Rev. W. A. Goebel and Rev. E. M. McGinnity will give the coming lecture their support and they think well of the movement.

In speaking of Mrs. Lake's good work the Springfield (Ill.) State Register says: "One of the strongest arraignments of the liquor traffic made in this city was that presented at Representatives' hall by Mrs. Lenora M. Lake, third vice president Catholic Total Abstinence Union of America. The speaker's treatment of her theme was fair, courageous and intelligent. Mrs. Lake speaks rapidly, without notes, but her enunciation and strength of voice are such that not a word is lost. Her remarks were frequently interrupted by the tumultuous applause of a delighted audience."

The Hen Preferred the Puppies.

A. W. Giehm of Sioux City, Ia., recently purchased a sitting of eggs and placed them under an old hen in his henhouse. In the same henhouse lives a terrier. A few days ago the animal gave birth to eight white puppies, and they were placed in a box in the corner. To the astonishment of the owner, his hen left her thirteen eggs and placed herself in full charge of the puppies. She has been cuddling the tiny pups under her wings and will allow no one to take them away without a great fight. The mother of the pups is on friendly terms with the hen, it would seem, for she lies on the floor and seems to have no objection to the foster mother. In the meantime the expensive sitting of eggs spoiled.

A Snoring Premier.

During the all-night sitting of the New South Wales legislative assembly this week the premier, Mr. Reid, spent a large part of the night in slumber on the opposition benches. The incident did not escape notice, as the retort attitude of the sleepy premier and his nasal performances compelled attention from all parts of the house. Eventually it was satirically demanded why the leader of the government should persist in remaining on the opposition side of the house. Mr. Barton promptly and wittily defended his new colleague by asking, "Why should he not be there? Is he not now my sleeping partner?"

A STORE OF MAGNITUDE

C. S. & E. W. Putnam Have a Splendid Store For Shoppers

A store that will make trading an absolute pleasure is that of C. S. & E. W. Putnam. Some time ago the Wheelock crockery store was purchased by this firm and since then it has been combined with their furniture business. A large archway has been cut between the two ground floor rooms so that shoppers can gain access to either without trouble. Six entire floors and the basement are occupied by this concern, making it a business of magnitude. Beside the purchase of the Wheelock stock which was on hand all the importations and holiday goods bought by the old firm were secured and many of the goods are already arriving. New purchases of stock have been made and each day finds a fresh invoice for buyers. A general reduction in prices has taken place through the entire stock. Figures have been reduced 10 per cent. on everything and from this down to 50 per cent. The high standard of the Wheelock store will be continued and prices will be pleasing to the most economical shopper. During the past 30 days over two and one-half carloads of fine furniture have arrived, such as side boards, dressers, bedroom suites, parlor furniture, chairs, etc., etc. Many of them in the colonial styles that are so desirable at present. The most attractive line of furniture ever seen in Janesville is here. Three of the strongest lines in the United States are represented exclusively by Putnam Bros.

WEIGHING THE MAIL AT LOCAL OFFICE

INTERESTING FIGURES OBTAINED FOR UNCLE SAM.

From the Janesville Office Over Ten Tons of Mail Was Shipped Within Thirty-five Days—Much More is Received—Three Thousand Letters and Postals Sent Daily.

The task of weighing the mail originating in this city for thirty five consecutive days was completed Monday evening and has been figured up by Albert F. Kemmett, superintendent of mails in the Janesville postoffice.

On Oct. 3 the process of weighing the mails began at every postoffice in the country and lasted for thirty five days. The results will be compared at Washington and for the first time in its history the government authorities will know exactly how much mail has been handled in thirty-five days ending at midnight, Nov. 6.

The weighing process just completed shows the total number of pounds handled as passing out of Janesville in these thirty-five days' time as being 20,243 pounds.

First class matter weighed in at 3,012 pounds; second class matter, 5,971 pounds; third class and fourth class matter 3,029 pounds.

The mail pouches, locks and other equipment used in handling this amount of local mail, weighed in themselves 7,015 pounds.

Fifty-four pounds of foreign mail was sent out of the Janesville office within the thirty-five days' time.

Three thousand letters and postals are daily sent out of Janesville.

There is twice as much mail matter received at this office as is sent out. It will be seen by these figures that the Janesville postoffice is a pretty good sized institution.

NEW GUILD HALL FOR TRINITY CHURCH

PARISHIONERS HELD MEETING
LAST EVENING.

Voted to Remodel the Entire Basement at a Cost of About \$300—May Erect Parish House Later—New Hall Has Been Needed For Years and Will Fill a Long Felt Want.

At a special meeting of the Trinity church parishioners held last evening at the chapel, it was voted to remodel the entire church basement into a model Guild hall. The cost will be in the neighborhood of \$300 and work will be commenced next week and rushed to completion. At the meeting last evening there was a good sized attendance, the Rev. J. A. M. Richey presiding. From the very outset it was evident that all present strongly favored the movement and without a dissenting vote the motion was carried.

For some time past the parishioners of Trinity church have been contemplating such a move, but nothing definite was done in the matter till last evening. It is the intention to have the new hall a most model one in every respect, and nothing in the way of expense will be spared to make it complete in every detail. The entire basement, with the exception of furnace space in the south end, will be utilized.

The new hall will be used for a place of meetings by the Guild and other societies of the church. As a Sunday school and choir room it will make a most excellent place. Rev. F. L. Maryon, who is now at Kenosha, first started the movement and to his untiring efforts much credit belongs.

STRONG TESTIMONY.

This is Janesville Testimony and Will Stand Investigation.

If you doubt the following and wish to investigate, you haven't to go to some other State in the Union to prove it. It's not a long story published in Janesville newspapers about a resident in Kalamazoo, Mich., or Tampa, Fla. It's about a resident of Janesville and given in his own words. No stronger proof can be had.

Mr. E. T. Fish, of 855 Racine St., proprietor of the Fish Dry Line, says: "When I was twenty years of age I fell, injured my back, and ever since that I was troubled more or less with a dull, aching pain across the loins. It never laid me up but it was often painful and annoying. Of late years I have gone to a physician every six months and had myself thoroughly examined under the impression that there might be something wrong with my kidneys. The diagnosis always resulting in the physician claiming these organs were sound, but as the pains existed when I happened to notice in our Janesville papers that Doan's Kidney Pills were guaranteed to cure just such troubles, I procured a box at the Janesville Drug Co.'s store, and took them. Doan's Kidney Pills are a good preparation. My back has not ached since I used them. I have heard others speak very complimentary of them and if I did not know their merit and required such a medicine I would consider it a favor if some one suggested their use to me. For this reason I endorse them."

For sale by all dealers. Price, 50 cents. Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States. Remember the name, Doan's, and take no other.

Exports for Ten Months.
Washington, Nov. 11.—The value of the principal articles of domestic exports for the month of October was \$75,801,637, a decrease of \$797,731 compared with those for the same month last year, and for the ten months ended Oct. 31 the value was \$729,947,863, as against \$610,094,533 in the same period of 1899. Compared with the same month last year, the export of breadstuffs shows a decrease of \$450,163; provisions an increase of \$134,087; cotton a decrease of \$2,258,555, and mineral oils an increase of \$1,783,890.

National Committee to Meet.
Cleveland, Nov. 11.—Senator Hanna says a call will be issued within a few days for the meeting of the national republican committee at Washington. The meeting will probably be held Dec. 13 or 14, although the exact date will not be decided upon until next week. The committee at this meeting will choose the date and place for holding the next national convention. There are two vacancies on the committee, and these will be filled at the forthcoming session.

Mr. Root Cannot Accept.
Chattanooga, Tenn., Nov. 11.—Official notice has been received from Secretary of War Root that he cannot accept the Illinois commissioners' invitation to visit Chickamauga park Nov. 23, at the time of the dedication of Illinois monuments, on account of legal engagements in New York. Commissioner of Pensions Evans has accepted an invitation to attend the dedication, and probably Ad-Gen. Corbin will attend.

Business Block Burned.
Hartford City, Ind., Nov. 11.—Fire broke out in the furniture department of the J. L. Hoover store in the Briscoe block Friday morning and three hose companies battled with the flames for two hours and a half before they were finally subdued. The interior of the structure was destroyed, only the walls being left standing. The estimated loss is \$75,000, about one-third of which is covered by insurance.

Shift for Jefferson Davis.
Richmond, Va., Nov. 11.—The convention of the United Daughters of the Confederacy decided to assume the responsibility of raising a monument to the memory of President Jefferson Davis, as suggested by the United Confederate Veterans at their last convention. The monument fund now in the hands of the association and camps amounts to about \$200.

Norfolk Court Returns.
Omaha, Neb., Nov. 11.—Complete returns on the election of supreme judges have been received from all but two counties in this state, giving Judge Holcomb a popular majority of slightly less than 14,000.

WILL IN SOUTH AFRICAN WAR.

Period of Comparative Calm in the Transvaal.

ONLY ACCUSATIONS MADE.

Each Side Accuses the Other of Violation of Truce and Red Cross Convention—British Preparations for Campaign Being Pushed.

Lidon, Nov. 11.—Judging from all the reports, little fighting is being done in any part of South Africa. Stories circulated by both sides and each accusing the other of firing on the Red Cross hospitals and ambulances. These are coming with great regularity and each accusation is followed by a specific denial.

It is leading to the suspicion that the Boers and British alike are using the truce as a cloak when the situation is critical.

It is of course, it is said, are also being betrayed with great regularity. The Boers do not speak well for the army representing two civilized nations.

According to an official report from Cape Town, the Boers made another capture of British soldiers, this time in the Bulawayo district, several members of Col. Plummer's force falling into the Boers' hands. Only six of Plummer's men are missing, according to the report, but it is quite probable the total loss is much larger.

Gen. Buller reports that the bombardment of Ladysmith continues, but he sticks to the previous stories of no serious damage being done.

Apparently the four and one-half inch rapid-fire guns from the Philomel are not in action. The Daily Mail's story is that they are being mounted on their ship carriages, which permit the use of the shield, but require a shoring to a bed of concrete, which takes time to set. The Daily Mail also hints out that the admirably supply of Lyddite shells is small, perhaps not for fifty rounds to each gun now at the front, so that the British gunners be to be extremely careful in the use of ammunition.

A large supply of Lyddite is now en route to the Transvaal, but will not arrive at urban for two or three weeks yet, and then it may require a lot of hard fighting to get it to Ladysmith for use.

Signs indicate that a greater part of the Boer force is concentrating between Ladysmith and Colenso. In this position Ladysmith is effectively cut off from all help, so that it matters little if the town is left uninvested to the north and west. At the same time the enemy will be placed so as to meet any British force advancing from Ladysmith.

court. The only risk the Boers run in this movement is that Gen. Buller will be in a position to intercept their retreat before Gen. Buller's force, unless they fall back in the direction of Tintwa pass or Oliver'shoek after an unsuccessful engagement, and if they take either of these routes probably will be forced to abandon most of their good guns.

The siege train for South Africa is to be mobilized immediately, and will consist of thirty howitzers, thirty-two officers, and 1,100 men.

Fifteen thousand rounds of Lyddite shells go with the train.

No more transports with troops have reached the Cape, though the transport Moor, with the general staff, has arrived. This is disappointing to the British, as it was hoped the Aurania, Pavonia and Yorkshire would be at Cape Town yesterday.

No artillery can arrive much before the 14th, as the Armenian with three field batteries is not due until then. Yet without guns the advance from Estcourt is almost impossible if the Boers hold the heights near Pieter's station in any strength.

London, Nov. 11.—The British war office has received from Gen. Buller the following dispatch:

"Cape Town, Thursday evening, Nov. 9.—Have received by pigeon post from Gen. Buller to-day the following: 'The bombardment at long range by heavy guns continues daily. A few casualties are occurring, but no serious harm is being done.'

'The Boers sent in to-day a number of refugees from the Transvaal under a flag of truce. A flag of truce from Ladysmith met them outside the pickets. When the party separated the Boer guns fired on it before it reached our pickets.'

'Major Gale of the Royal Engineers was wounded to-day while sending a message.'

'The intrenchments are daily growing stronger and the supply of provisions is ample.'

Estcourt, Natal, Tuesday, Nov. 7 (night).—An armored train which has returned from within half a mile of Colenso saw no sign of the Boers.

London, Nov. 11.—Another rumor emanating from Amsterdam sources, says that "a British regiment was decimated Friday by Free Staters." It is added that 600 of the British soldiers were killed or wounded and that 300 horses were captured.

To Protect Transports.

Gibraltar, Nov. 11.—The British second-class cruiser Furiosus of the channel fleet left Friday for the Madeira Isles to patrol the course of the British transports taking the west-coast route to South Africa. The cruiser Andromeda and the destroyer Earnest have arrived from Malta to join the channel fleet.

A Remedy That Cures Paralysis

Mr. H. N. Warner, of Kearney, Neb., says:

"In 1894 I was attacked with paralysis in my left side. You might stick a pin to the head into my left hip and I would not feel it. I was unable to do any kind of work, and had to be turned in bed. I fully made up my mind that I could not be cured, as I had used all kinds of medicine and had tried many doctors. At last I was advised to try Dr. Williams' Pink Pills for Pale People, and I very reluctantly commenced their use last September. Before I had finished my first box I began to feel much better, and by the time I had used six boxes the paralysis disappeared; and although two months have passed since I finished my last box, there has been no recurrence of the disease."

From the Advertiser, Astoria, Neb.

Dr. Williams' Pink Pills for Pale People contain, in a condensed form, all the elements necessary to give new life and richness to the blood and restore shattered nerves. They are an unfailing specific for such diseases as locomotor ataxia, partial paralysis, St. Vitus' dance, sciatica, neuralgia, rheumatism, nervous headache, the after-effects of la grippe, palpitation of the heart, pale and sallow complexions, all forms of weakness either in male or female.

Dr. Williams' Pink Pills for Pale People are never sold by the dozen or hundred, but always in packages of 50 pills, or direct from the Dr. Williams Medicine Company, Schenectady, N. Y., 50 cents per box, 6 boxes \$2.50.
